

MICHIGAN

Nursing Action Coalition

Practice Action Team

The Action Coalition is made up of nursing organizations and nursing advocates who want to participate in developing health care solutions that contribute to a culture of health in Michigan.

Team Focus

1. Expand opportunities for nurses to lead and diffuse interprofessional collaborative improvement efforts.
2. Promote nurse engagement in life-long learning.
3. Use data/evidence to inform nursing practice.
4. Ensure right care from right professional at right time.
5. Enhance technology use in all practice settings.
6. Provide infrastructure for nursing practice in underserved communities.

Team Charge

Complete an environmental scan in MI:

- Catalog existing initiatives that address the priorities
- Review current best/promising practices
- Minimize duplication

Prioritize IOM recommendations & MI Public health issues:

- Review existing data and current information
- Consider feasibility and potential for impact
- Identify necessary resources to achieve success

Create an Action Plan for MI:

- Long and short term goals
- Estimated timeline
- Identify responsible parties

Identify, propose, and recruit non-nurse partners in MI

How to Get Involved

Visit our website at miactioncoalition.org. Fill out the volunteer form at the bottom of the page in order to get involved with the Practice Action Team.

Michigan Nursing Action Coalition: Roadmap to Population Health 2015-2020

Action Teams:

Education

- IOM Recommendations
 - Increase # of BSNs
 - Increase # of doctorates
- Population Health
 - Educate about population health issues through nursing curriculum (AND, BSN, MSN, DNP, PhD)

Practice

- IOM Recommendations
 - Lead and diffuse collaborative improvement
 - Life-long learning
- Population Health
 - Use data to inform practice
 - Right care from the right professional at the right time
 - Better use of technology
 - Provide infrastructure to practice in underserved communities

Leadership

- IOM Recommendations
 - Prepare and enable nurses to lead change to advance health
- Population Health
 - Participate on Boards/Advisory Groups for organizations that can impact population health
 - Ensure nurses are empowered by their employers to participate

Diversity

- IOM Recommendations/Population Health
 - Increase student diversity
 - Increase faculty diversity
 - Competencies to provide care for diverse populations

Issues applicable across the roadmap

- Funding
- Partnerships
- Emerging markets
- Goals: short-medium-long term
- Interprofessional education/Interprofessional collaborative practice
- Data: what and where
- Identification of available resources, e.g. RWJF

Charge to workgroups

- Identify and recruit non-nurse partners
- Prioritize IOM and Population Health issues to address
 - Review existing data
